37. **THE INTRUCTIONS OF SHAREHOLDERS FOR E-VOTING AND JOINING VIRTUAL MEETINGS ARE AS UNDER:**
 - Step 1:** Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

Step 2: Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in demat mode.

- (i) The voting period begins on **Friday, 18th September, 2026 at 9.00 a.m. (IST)** and ends on **Sunday, 20th September, 2026 at 5.00 p.m. (IST)**. During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) **Monday, 14th September, 2026** of may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1: Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

- (iv) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

ANNEXURE-VI**MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

Your Directors hereby presents the Management Discussion and Analysis Report (MDAR) for the year ended on 31st March, 2026:

ECONOMIC DEVELOPMENT & BUSINESS OVERVIEW:

India continued to remain among the fastest growing large economies during FY 2026, supported by domestic demand, agriculture, infrastructure-led investments and the food processing sectors. India's GDP growth for FY26 is estimated at 7.4 per cent driven by the double engine of consumption and investment. It reaffirms India's status as the fastest-growing major economy for the fourth consecutive year.

Agriculture and allied activities contribute nearly one-fifth of India's national income at current prices, but account for 46.1% of the country's workforce. Given the relatively large share of employment in agriculture and allied activities, the sector remains central to India's overall growth trajectory. Strengthening agricultural performance is therefore important for inclusive growth and ensuring food security. (Source: <https://www.indiabudget.gov.in/economicsurvey/>)

Amid this backdrop, Tirupati Starch & Chemicals Limited delivered an impressive performance. The Company reported total Revenue of Rs. 365.99 crores in the FY 2025-26 and Net Profit of Rs. 6.58 crores, driven by higher capacity utilization, an improved product mix, and operational efficiencies. With a strategic focus on innovation, cost optimization, and value-added product offerings, the Company is well positioned to capitalize on future growth opportunities.

With a recovering global economy, our focus shifts to sustainable growth strategies amidst evolving market dynamics. Key sectors such as technology and renewable energy are expected to drive significant investments and innovation. Regulatory changes continue to shape business operations and market competitiveness. Challenges persist, including inflationary pressures and disruptions in supply chains, requiring agile responses from enterprises. Nonetheless, opportunities are abundant in digital transformation, harnessing data analytics, and advancing green technologies. As stakeholders navigate these changes, collaboration between public and private sectors remains vital to fostering inclusive growth and achieving economic sustainability in the coming year.

A. Industry Structure and Development:

The Indian starch and starch derivatives market size was valued at USD 3.45 billion in 2025 and estimated to grow from USD 3.7 billion in 2026 to reach USD 5.25 billion by 2031, at a CAGR of 7.25% during the forecast period (2026-2031). Growth stems from ethanol-blending policies that have lifted corn demand, rising adoption of clean-label modified starches across food and beverage categories, and policy-backed shifts toward starch-based bioplastics following the single-use plastic ban. Parallel expansion in pharmaceutical manufacturing, where cyclodextrins enhance drug-delivery performance, and in e-commerce packaging, where starch adhesives replace synthetic glues, further bolsters revenue opportunities. (Source: <https://www.mordorintelligence.com/industry-reports/india-starch-and-starch-derivative-market>)

A significant trend in the industry is the shift from native starch to value-added derivatives such as liquid glucose, dextrose monohydrate, and modified starches. This evolution is driven by end-user industries seeking better performance, cleaner labeling, and improved functional benefits. However, the industry faces challenges such as raw material price volatility (particularly maize), high energy costs, and tight working capital cycles.

TC&CL remains aligned with industry trends through investments in process optimization, quality improvement, and customer-centric product development. The maize-based starch segment, in which Tirupati Starch & Chemicals Limited operates, remains fragmented yet dynamic, with a clear shift towards value-added and specialty derivatives. Increasing applications of modified

starches and dextrins across industries have further enhanced growth opportunities. The Company is well-positioned within this landscape, supported by its integrated operations, diversified product range and emphasis on quality and innovation. These industry developments have positively influenced the Company's performance and strategic direction during the year.

Company's Business Segment:

The company maintains its position in the starch industry, both domestically and internationally, thanks to the high quality and versatile applications of its products. Being ISO 9001:2015 certified underscores the company's commitment to maintaining rigorous standards in product quality and manufacturing processes. Efforts are focused on expanding the company's product portfolio with high-value offerings to enhance profitability. Our vision is to build upon our legacy of excellence, continually evolving to meet the evolving needs of a changing world and shifting customer preferences.

Consistently, as in previous years, the company has successfully supplied its high-quality products globally and continued its strong performance this year. Currently, the company deals with the following product categories:

- a) Maize Starch and its byproducts,
- b) Dextrose Anhydrous and its byproducts,
- c) Dextrose Monohydrate and its byproducts,
- d) Modified Starch and value added byproducts.
- e) Liquid Glucose.

B. Opportunities and Threats:

Opportunities:

The industrial maize and corn starch sector continues to present substantial, long-term growth prospects, fundamentally driven by an accelerating global and domestic shift toward natural, bio-based, and sustainable ingredients. As downstream industries face increasing pressure to substitute synthetic elements with biodegradable alternatives, corn starch remains a highly versatile and structurally sound input. Backed by abundant domestic crop availability and consistent agro-technological advancements, the post-pandemic recovery has fully transitioned into a permanent structural demand baseline across several key industry verticals. The corn starch industry offers significant growth opportunities due to the increasing demand for natural and sustainable ingredients.

a) There is significant demand for these products across a wide range of industries:

- **Food & Beverage Industry:** Maize Starch and Modified starches serve purposes such as thickening, stabilizing, binding, and emulsifying. Corn starch is also used in the production of ready-to-eat food products. Starch & its Derivatives utilized as alternatives for sweeteners and flavors in beverages and confectionery.
- **Poultry, Dairy & Cattle Sector:** Industrial by-products such as maize husk and corn gluten are witnessing robust off-take in the animal husbandry domain. Corn gluten, functioning as an elite, high-yield vegetable protein matrix, is increasingly recognized as an essential component for livestock nutrition and standardized cattle feed blends.
- **Paper & Packaging Industry:** Corn starch enhances the bonding strength of paper and corrugated boxes.
- **Textile Industry:** Used to soften fabrics and add weight to clothes.
- **Pharma & Cosmetic Industry:** Acts as an instant binder and disintegration agent in tablets, emulsions, ointments, powders, etc.
- **Automobile Industry:** Corn starch is employed in manufacturing car parts to enhance safety features.
- **Bioplastics & Sustainable Packaging:** The rising environmental concerns have driven an increase in demand for eco-friendly packaging solutions. Corn starch-based bioplastics offer a sustainable alternative to conventional plastics. They are biodegradable and compostable, significantly reducing environmental impact. Companies can seize this opportunity by

investing in the advancement of bioplastic products and forming partnerships with stakeholders across the value chain.

- b) **Increased Export Opportunities:** The corn starch industry holds substantial export potential driven by growing global demand for natural and sustainable ingredients. Companies can capitalize on this opportunity by diversifying their product offerings and entering new markets. Collaborating with local partners to establish robust distribution networks is another strategic approach to expanding market presence and capturing market share. Indian exports remain competitively priced compared to global rates, opening up export opportunities for India.
- c) **Industrialization:** Rapid population growth and industrialization have fueled the growth of the corn starch market. Various government schemes supporting industries are major contributors to this growth.

With a legacy spanning over 39 years, we have maintained our position as a leading player in the starch industry, a testament to our remarkable achievements. Our focus on operational excellence has resulted in substantial savings and efficiencies. Strategically, we are expanding into new markets and enhancing our capabilities, meticulously meeting the specific needs of our customers in food, beverages, and animal feeds. These efforts have bolstered our results, despite challenges in certain sectors with constrained margins. We are beginning to reap the rewards of our proactive measures aimed at enhancing performance, and we anticipate further improvements as the year progresses.

Threats:

The industry confronts significant challenges related to its primary raw material, maize, which is an agricultural product. The availability and price of maize are highly volatile due to its cultivation being influenced by natural factors. Because the industry's raw materials are agricultural, they are susceptible to price fluctuations and production uncertainties. Additionally, the sector faces increasing competition.

Further exacerbating these issues, the price of maize and other input costs may rise due to the monsoon, potentially impacting industry margins. Factors contributing to restrained growth include unstable raw material supply, competitive pressures from bio-energy demands, and the interplay between oil prices and agricultural raw materials.

C. Segment-Wise or Product-Wise Performance:

The Company is engaged in developing, manufacturing and distribution of Maize Starch Powder, Dextrose Anhydrous, Starch, White Dextrin, Yellow Dextrin as its main products and it's by-products in local as well as international market.

Product-Wise Performance: The Revenue from operation of the company for the current year is Rs. 36325.96 Lacs, bifurcated as follows:

S. No.	Product	Amount Rs. in Lakhs
1.	Dextrose	0.00
2.	Starch	26357.14
3.	Byproducts	9549.98
4.	Scrap / Waste	418.04
5.	Export Incentive	0.80
TOTAL		36325.96

Geographical Wise Performance:

S. No.	Product	Amount Rs. in Lakhs
1.	Domestic	36265.80
2.	Exports (including incentive)	59.36
TOTAL		36325.16

D. Outlook:

The Company remains highly optimistic for the upcoming years, actively expanding its domestic footprint and exploring new global business opportunities. This growth trajectory is strongly supported by the robust expansion strategies outlined by our key B2B customers, signaling a sustained demand pipeline for our products.

However, the global operational landscape faces heightened risks from shifting geopolitical realities. Beyond the historical economic impacts of the Russia-Ukraine war, emerging global frictions—such as escalations involving the USA and Iran, or regional tensions between India and Pakistan—pose structural threats to supply chains, driving up international freight, energy costs, and global commodity indices. To effectively insulate our margins from these external shocks and domestic input cost pressures, the Company is aggressively implementing internal efficiency measures. These include deep process optimization, plant-level cost containment, tighter supplier negotiations, and the exploration of cost-effective agro-input alternatives. Our ultimate goal is to maintain a strategic balance between safeguarding corporate profitability and preserving deep-rooted customer loyalty for sustainable, long-term success.

E. Risks and Concerns:

Agricultural production and trade flows are influenced by various governmental policies, mandates, and regulations. These include taxes, tariffs, duties, subsidies, incentives, foreign exchange rates, and import/export restrictions on agricultural commodities and products. These factors impact decisions such as crop selection, production locations and sizes, trade of processed or unprocessed commodities, import and export volumes and types, availability and competitiveness of feed stocks, and industry profitability.

The Company's operational outcomes may also be affected by changes in other governmental policies, mandates, and regulations, encompassing monetary, fiscal, and environmental policies, as well as laws, regulations, acquisition approvals, and governmental and agency activities. These risks include shifts in economic or political conditions within countries or regions, local labor conditions and regulations, reduced intellectual property protection, alterations in regulatory or legal environments, constraints on currency exchange activities, fluctuations in currency exchange rates, burdensome taxes and tariffs, enforceability of legal agreements and judgments.

The Company faces the risk of price fluctuations in raw materials, dyes, chemicals, work-in-progress, and finished goods. To mitigate raw material price risks, the Company manages its commodity price exposure by maintaining adequate inventories of raw materials, dyes, chemicals, work-in-progress, and finished goods, taking into account anticipated price movements. Additionally, the Company collaborates with various raw material suppliers to optimize costs, enhance application flexibility, and improve product functionality through investments in product development and innovation.

Furthermore, the Company is exposed to risks such as technology risks, supply chain disruptions, evolving consumer demands, environmental considerations, competition, government regulations, legal mandates, and foreign policy, all of which can impact profitability and operations.

F. Internal Control Systems and their adequacy:

The Company maintains a robust internal control system designed to safeguard assets, monitor transactions effectively, and prevent unauthorized use or disposal. The Company has appointed a firm of Chartered Accountants as Internal Auditors and has an effective internal control system to ensure that all the transactions are properly executed and recorded. The systems are also reviewed by the management, statutory auditors and audit committee of the Company to ensure efficiency and transparency in the operations of the Company. The system is also in place to ensure that all applicable statutory and legal formalities are complied with.

The management of company has the responsibility for establishing and maintaining internal controls for financial reporting, to evaluate the effectiveness of internal control systems of the company pertaining to financial reporting and they have to disclose to the auditors and the Audit Committee, deficiencies in the design or operation of such internal controls, if any, of which they are aware and the steps they have taken or propose to take to rectify the deficiencies.

G. Discussion on financial performance with respect to operational performance:

During the year under review, the Company's total Revenue was Rs. 36599.12 Lakh as compared to the total Revenue of Rs. 39023.55 Lakh for the Financial Year ended 31st March, 2025 and Company reported a Profit of Rs. 658.04 Lakh as compared to a Profit of Rs. 753.74 Lakh for the Financial Year ended on 31st March, 2025.

H. Material Developments in Human Resource and Industrial Relations front:

Caring for its people is fundamental to the Company, which views its employees as its most valuable assets. Continuous efforts are made to enhance human resource skills, competencies, and capabilities, essential for achieving our strategic business goals. The Company has successfully fostered a cohesive, people-centric culture that has cultivated a diverse pool of intellectual capital.

Dedicated to empowering its employees, the Company initiates various programs and activities aimed at personal and professional growth. A team of experienced professionals supports plant and allied operations, bringing critical technical expertise and experience necessary for timely decision-making and implementation. Recruiting qualified personnel and retaining experienced staff are priorities to maintain a robust talent pool. The Company diligently ensures effective recruitment and retention strategies to prevent any gaps in talent.

Employees are encouraged to take ownership and accountability for their roles, fostering a culture of responsibility. In addition to human resource development, the Company provides comprehensive welfare measures for employees and their families. Positive industrial relations within the factory contribute to building a strong team across different levels, characterized by valuable experience and skills.

The cornerstone of the Company's approach to human resource development is that skilled and motivated personnel are crucial for achieving business objectives. Policies are crafted and implemented with this aim in mind. Throughout the year, industrial relations were harmonious across all locations, with no working hours lost due to labor disputes. As of 31st March, 2026, the Company employed a total of 332 personnel.

Independent Auditor's Report

To the Members of

Tirupati Starch & Chemicals Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone financial statements of **Tirupati Starch & Chemicals Limited** ("the Company"), having registered office at 12, Agrawal Nagar, Main Road, Indore (MP), (PAN : AABCT1314J) (CIN : L15321MP1985PLC003181), which comprises the Standalone Balance sheet as at 31st March 2026, and the Standalone statement of Profit and Loss (including the statement of other Comprehensive Income), Standalone statement of changes in Equity and Standalone statement of Cash flows for the year then ended, and notes to the Standalone financial statements, including a summary of significant accounting policies and other explanatory information (herein after referred to as "Standalone Financial Statement").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards Rules 2015 as amended (IndAS) and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2026, and profit including (other comprehensive income), its cash flows and changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence, obtained by us is sufficient and appropriate to provide a basis for our opinion on the Standalone Financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone financial statements for the financial year ended March 31, 2026. These matters were addressed in the context of our audit of the Standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to communicate in our report.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon (Other Information)

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information but does not include the Standalone financial statements and our auditors' report thereon.

Our opinion on the Standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone financial statements, our responsibility is to read the other information identify above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Standalone financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Company's annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations. We have nothing to report in this regard.

Management's and Board of Directors Responsibility for the Standalone Financial Statements

The Company's Management & Board of Directors are responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone financial statements that give a true and fair view of the financial position, financial performance including other Comprehensive Income and cash flows of Income and changes in Equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (IndAs) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing. As applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the

aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to Standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone financial statements, including the disclosures, and whether the Standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone financial statements for the financial year ended March 31, 2026 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the '**Annexure A**' a statement on the matters specified in paragraphs 3 and 4 of the said Order, to the extent applicable.

“Annexure B”

to the Independent Auditor’s Report on The Standalone Financial Statement of Tirupati Starch & Chemicals Limited for the year ended March 31, 2026.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Tirupati Starch and Chemicals Limited (“the Company”) as of March 31, 2026 in conjunction with our audit of the Standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls with reference to financial statement of the company that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statement of the company over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting with Reference to these Standalone Financial Statements.

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statement of the company over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1. Company Overview :

Tirupati Starch & Chemicals Limited is a Public Limited Company domicile in India the registered office at 12 Agrawal Nagar Indore (MP), and is listed on the Bombay Stock Exchange & incorporated in the year 1985. The company is engaged in Manufacturing of Starch, Dextrose Anhydrous, Liquid Glucose and other Products.

2. MATERIAL ACCOUNTING POLICIES :

A. Statement of Compliance:

These financial statements of the company have been prepared in accordance with Indian Accounting Standards (IND AS) notified under the companies (Indian Accounting Standard) Rules 2015 as amended from time to time and presentation requirements of Division II of schedule III to the Companies Act 2013 (Ind-AS compliant Schedule III). These financial statements have been approved for issue by the Board of Directors at its meeting held on May 29, 2026.

B. Basis of Preparation:

The financial statements have been prepared on the going concern basis at historical cost convention on the accrual basis except for assets and liabilities which have been measured as indicated below:

- (i) Certain financial assets and liabilities at fair value.
- (ii) Employee's Defined Benefit Plan measured as per actuarial valuation.

Fair value measurements are categorised as below based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at measurement date;
- Level 2 inputs are inputs, other than quoted prices included in level 1, that are observable for the assets or liabilities, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the valuation of assets or liabilities.

Above levels of fair value hierarchy are applied consistently and generally, there are no transfers between the levels of the fair value hierarchy unless the circumstances change warranting such transfer.

FY 2025 - 26

C. Presentation of financial statements:

The Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 (the Act). The Statement of Cash Flows has been prepared and presented in accordance with Ind AS 7 "Statement of Cash Flows". The disclosures with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified Accounting Standards and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended.

Amounts in the financial statements are presented in Indian Rupee in Lakhs rounded off to two places as permitted by Schedule III to the Act. Per share data are presented in Indian Rupee to two decimal places.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS :

Key sources of estimation:

The preparation of financial statements in conformity with Ind AS requires that the management of the Company makes estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. The estimates and underlying assumptions made by management are explained under respective policies. Revisions to accounting estimates include useful lives of property, plant and equipment & intangible assets, allowance for expected credit loss, future obligations in respect of retirement benefit plans, fair value/recoverable amount measurement, etc. Difference, if any, between the actual results and estimates is recognised in the period in which the results are known

Classification of Assets and Liabilities as Current and non-Current:

The Company presents assets and liabilities in the balance sheet based on current / non-current classification based on operating cycle.

An asset is treated as current when it is:

- a. Expected to be realized or intended to be sold or consumed in normal operating cycle;
 - b. Held primarily for the purpose of Trading.
 - c. Expected to be realized within twelve months after the reporting period,
- Or
- d. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:-

- a. It is expected to be settled in normal operating cycle.

TIRUPATI STARCH & CHEMICALS LIMITED

CIN : L15321MP1985PLC003181

12, AGRAWAL NAGAR MAIN ROAD, INDORE

FY 2025 - 26

- b. It is held primarily for the purpose of Trading.
- c. It is due to be settled within twelve months after the reporting period.
- Or
- d. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other Liabilities are classified as non-Current.

Deferred Tax Assets and Deferred Tax Liabilities are classified as non-current Assets and Liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The company has identified twelve months as its operating cycle.

3.1 **PROPERTY, PLANT AND EQUIPMENT (PPE):**

- (i) PPE is recognised when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. PPE is stated at original cost net of tax/duty credits availed, if any, less accumulated depreciation and cumulative impairment, if any. Freehold land is carried at cost. All directly attributable costs related to the acquisition of PPE and, borrowing costs in case of qualifying assets are capitalised in accordance with the Company's accounting policy.
- (ii) Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably. In the carrying amount of an item of PPE, the cost of replacing the part of such an item is recognized when that cost is incurred if the recognition criteria are met. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition principles. All other repairs and maintenance are charged to the statement of profit and loss during the reporting period in which they are incurred.
- (iii) Expenses incurred relating to project, net of income earned during the project development stage prior to its intended use, are considered as pre - operative expenses and disclosed under Capital Work - in - Progress.
- (iv) Depreciation on property, plant and equipment is provided on prorata basis using straight line method. Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013. Each part of an item of Property, Plant & Equipment with a cost that is significant in relation to total cost of the Machine is depreciated separately, if its useful life is different than the life of the Machine.

TIRUPATI STARCH & CHEMICALS LIMITED

CIN : L15321MP1985PLC003181

12, AGRAWAL NAGAR MAIN ROAD, INDORE

FY 2025 - 26

- (v) The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.
- (vi) An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognized.
- (vii) Spare parts procured along with the Plant & Machinery or subsequently which meet the recognition criteria are capitalized and added in the carrying amount of such item. The carrying amount of those spare parts that are replaced is derecognized when no future economic benefits are expected from their use or upon disposal. Other machinery spares are treated as “stores & spares” forming part of the inventory.

DEPRECIATION:

Property, plant and equipment / intangible assets are depreciated / amortized over their estimated useful lives, which are equal to the useful life prescribed under Schedule II to the Companies Act, 2013 after taking into account estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation / amortization to be recorded during any reporting period. The useful lives and residual values are based on the Company’s historical experience with similar assets and take into account anticipated technological changes based on a technical evaluation by the management. The depreciation / amortization for future periods is revised if there are Significant changes from previous estimates.

FY 2025 - 26

INTANGIBLE ASSETS:

Intangible assets are stated at cost of acquisition net of recoverable taxes less accumulated amortization/ depletion and impairment loss if any. The cost comprises of purchase price, borrowing costs and any cost directly attributable to bringing the asset to its working condition for the intended use.

Expenditure incurred on acquisition of intangible assets which are not ready to use at the reporting date is disclosed under “Intangible assets under development”

Amortization Method and Periods:

Amortization is charged on a straight– line basis over the estimated useful lives and these intangible assets are assessed for impairment whenever there is an indication that the intangible asset may be impaired. The estimated useful lives and amortization method are reviewed at the end of each annual reporting period with the effect of any changes in the estimate being accounted for a prospective basis.

Computer Software’s are amortized over an estimated useful life of 3 Years.

3.2 IMPAIRMENT OF ASSETS:

3.2.1 IMPAIRMENT OF NON FINANCIAL ASSETS:

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset’s recoverable amount. An asset’s recoverable amount is the higher of an asset’s or Cash Generating Units (CGU’s) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is used.

3.3 BORROWING COST :

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of such assets up to the assets are substantially ready for their intended use or sale.

The loan origination costs directly attributable to the acquisition of borrowings (e.g. loan processing fee, upfront fee) are amortized on the basis of the effective interest rate (EIR) method over the term of the loan.

TIRUPATI STARCH & CHEMICALS LIMITED

CIN : L15321MP1985PLC003181

12, AGRAWAL NAGAR MAIN ROAD, INDORE

FY 2025 - 26

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are recognized in the statement of profit and loss in the period in which they are incurred.

3.4 FOREIGN EXCHANGE TRANSACTIONS AND FORWARD CONTRACTS:

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupees ('INR'), which is also the company's Functional currency.

Transactions and balances

Transactions in foreign currencies are initially recorded by the company at their respective Functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities Denominated in foreign currencies are translated at the functional Currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognized in the Statement of profit or loss with the exception of the following:-

Exchange difference on foreign currency borrowings included in the borrowing cost when they regarded as an adjustment to interest costs on those foreign currency borrowings.

Exchange differences on gain or loss arising on translation of non-monetary items measured at fair value which is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e. translation difference on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss respectively)

Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items, which are carried in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction.

3.5 EMPLOYEE BENEFITS:

3.5.A Short term employee benefits

Liabilities for wages and Salaries, Annual Leave & Bonus etc. including non monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related services are recognized in respect of employee service up to the end of the reporting period and are measured at the amount expected to be paid when the liabilities are settled. The Liabilities are presented as current employee benefit obligations in the Balance sheet.

3.5.B Other Long Term employee Obligation benefit plans:

a) Defined contribution plans

Provident and other funds

The company makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards provident fund and other funds which are defined contribution plans. The Company has no obligations other than this to make the specified contributions.

b) Defined benefit plans

Gratuity

The Company has an arrangement with LIC of India for settlement of gratuity obligations. Under this arrangement, the Company does not make periodic contributions towards the gratuity liability as it accrues annually. Instead, the requisite amount is funded to LIC of India at the time the gratuity liability becomes due and payable to the employee, and the corresponding gratuity obligation is discharged through LIC.

Company has covered Gratuity Liability through 'GROUP GRATUITY POLICY' issued by LIC of India. The said policy covers the following:

1. Gratuity Payable to employee at the time of retirement from the funds accumulated in employees account with the insurance company.
2. Eligible Gratuity payable to the employee at the time of resignation or retrenchment before retirement age from the funds accumulated in the account with the Insurance Company.
3. Gratuity payable at the time of early death (i.e. before retirement), being an amount of Full Gratuity, which is payable on the day of retirement.

Expenses for defined benefit gratuity payment plans are calculated as at the balance sheet date by independent actuary in the manner that distributes expenses over the employees working life. The amount as determined by the independent Actuary in respect of Gratuity Liability. at the end of the year is considered as expenditure at the end of the year. These commitments are valued at the present value of the expected future payments, with consideration for calculated future salary increases, using discounted rate corresponding to the interest rate estimated by the actuary with a remaining term i.e. almost equivalent to the average balance working period of employees. The services cost and the net interest cost are charged to the statement of profit and loss, Actuarial gain and losses arise due to re-measurement as result of the actual expenses and assumed parameters and changes in the assumption used for valuation are recognized in the Other Comprehensive Income (OCI)

3.6 **REVENUE RECOGNITION :**

(i) Revenue from contracts with customers:

The Company Manufactures - Maize Starch and Starch Products.

Revenue has been recognized as & when all the performance obligations in the ordinary course of business are satisfied. The consideration of goods expected from customer reflects the promised goods actually transferred as per the normal terms and condition attached at the time of risk and rewards and customer obtains the control over the goods has been transferred. An entity does not deals in the packaged or combined goods and contract with customer need not raise any future obligation, an Entity deals only in a distinct goods and all the goods promised in the contract are a single and separate performance obligation at the time when customer obtains the control and possess all risk and rewards attached to the distinct goods has been transferred to the customer in an actual sense.

At the inception Entity identifies and determines the distinct goods and fixed the consideration based on explicit and a single performance obligation i.e. no future obligation remains to be performed. There is no variable consideration and no any events occurred that cause consideration to be variable and hence no any question of determination transaction cost.

Revenue recognized in the result shows the actual obligation performed and does not include such other activities to satisfy future obligation unless a goods or is actually transferred to the customer.

An Entity does not involve in such contracts which identify the multiple performance obligations and therefore customer has no options to acquire an additional goods embedded to the original and distinct goods and accordingly management recognized the revenue based on the terms and conditions stipulated at the time of transfer the distinct and promised goods which has been delivered to the customers.

An Entity does not enter in to a contract to install or maintenance or incentives or warranty or discount policy and therefore no future obligation need to be performed to adjust the consideration received and there is no created/occurred any deferred revenue.

So based on the single performance obligation there are in the contract, price consideration recognized in the financial statement would not materially differ. If there is an uncertainty in recovery of the recognized revenue and does not arise the cash flow from such contracts with customers in this case management shall expediently justify their judgment, assumption and estimation taken while the standard set.

Other Income :

a. Export Benefits

The amount available towards Export Benefits under duty exemption or any other Scheme during the years has been ascertained when the right of receive credit as per terms of the scheme is established in respect of export made at fair value of consideration received or receivable.

- c. Insurance claims are accounted for on the basis of claim admitted / expected to be admitted to the extent that there is no uncertainty in receiving the claims.
- d. Other items of income are accounted as and when the right to receive such income arises and it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

Exceptional items

An item of income or expense which by its size, type or incidence requires disclosure in order to improve an understanding of the performance of the Company is treated as an exceptional item and disclosed as such in the financial statements

3.7 GOVERNMENT GRANTS AND SUBSIDIES:

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants that compensate the Company for expenses incurred are recognized in the statement of profit and loss, as income or deduction from the relevant expense, on a systematic basis in the periods in which the expenses is recognized.

Government grants relating to the purchase of property, plant and equipment are recognized by deducting the same from carrying value of the related asset the grant is then recognized in profit or loss over the useful life of the depreciable asset by way of a reduced depreciation charge.

3.8 INVENTORIES :

Inventories are valued as follows:

SR.No.	Name	Description
1	Raw Materials, Dyes and Chemicals, Stores& Spares and Consumables	Lower of cost and net realizable value. Cost is determined on a FIFO basis. Cost includes expenditure incurred in acquiring the inventories and other costs include in bringing them to their present location and condition. Materials and other items held for use in the production of inventories are not written down below costs, if finished goods in which they will be incorporated are expected to be sold at or above cost.
2	Work-in-Process, Finished goods, By-products.	Lower of cost and net realizable value. Cost includes direct materials, labour, and a proportion of manufacturing overheads and an appropriate share of fixed production overheads based on normal operating capacity. Net realizable value is the estimated selling price in the ordinary course of business, less estimated cost of completion and the estimated costs necessary to make sale.
3	Waste/Scrap	At net realizable value

3.9. **PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS:**

The company recognizes a provision when there is present obligation as a result of a past event that probably requires an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. A disclosure for a contingent liability made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation and the likelihood of outflow of resources is remote, no provision or disclosure for contingent liability is made.

Contingent assets are not recognised in the financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised

Provisions, Contingent Liabilities, Contingent Assets and commitments are reviewed at each Balance sheet date.

3.10 **FINANCIAL INSTRUMENTS :**

A financial instrument is any contract that gives rise to a financial asset of one entity and a Financial Liability or Equity Instrument of another entity. Financial instruments also include derivative contracts such as foreign currency, foreign exchange forward contracts and interest rate swaps

3.10.1 **Financial Assets**

a) Initial recognition and measurement

All financial assets are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition. Purchase and sale of financial assets are recognized using trade date accounting.

b) Subsequent measurement

Financial assets carried at amortized cost

A financial asset is measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realize its fair value changes) and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

TIRUPATI STARCH & CHEMICALS LIMITED

CIN : L15321MP1985PLC003181

12, AGRAWAL NAGAR MAIN ROAD, INDORE

FY 2025 - 26

For financial assets that are measured at FVTOCI, income by way of interest and dividend, provision for impairment and exchange difference, if any, (on debt instrument) are recognised in profit or loss and changes in fair value (other than on account of above income or expense) are recognised in other comprehensive income and accumulated in other equity. On disposal of debt instruments at FVTOCI, the cumulative gain or loss previously accumulated in other equity is reclassified to profit or loss. In case of equity instruments at FVTOCI, such cumulative gain or loss is not reclassified to profit or loss on disposal of investments.

Financial assets at fair value through profit or loss (FVTPL)

A financial asset not classified as either amortized cost or FVOCI, is classified as FVTPL.

C) Equity Investments

All other equity investments are measured at fair value, with value changes recognized in Statement of Profit and Loss, except for those equity investments for which the Company has elected to present the value changes in 'Other Comprehensive Income'.

d) Investments in subsidiaries, associates and joint ventures

The Company assesses if it has acquired control, joint control or significant influence over an investee based on shareholding, voting power, composition of board, rights under shareholder agreements and other facts and circumstances of each case which involves use of judgment. The Company accounts for its equity investments in subsidiaries, associates and joint ventures at cost less accumulated impairment, if any.

TRADE RECEIVABLES:

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. If the receivable is expected to be collected within a period of 12 months or less from the reporting date (or in the normal operating cycle of the business, if longer), they are classified as current assets otherwise as non-current assets.

Trade receivables are measured at their transaction price unless it contains a significant financing component in accordance with Ind-AS115 or pricing adjustments embedded in the contract.

Loss allowance for expected life time is credit loss recognized on initial recognition.

e) Impairment of financial assets

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for Evaluating impairment of financial assets other than those measured at fair value through profit And loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

TIRUPATI STARCH & CHEMICALS LIMITED

CIN : L15321MP1985PLC003181

12, AGRAWAL NAGAR MAIN ROAD, INDORE

FY 2025 - 26

- The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date);

or

- Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

For trade receivables Company applies 'simplified approach' which requires expected lifetime losses to be recognized from initial recognition of the receivables. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analyzed.

For other assets, the Company uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

3.10.2 **Financial Liabilities**

3.10.2.1 **Initial recognition and measurement**

All financial liabilities are recognized at fair value and in case of loans, net of directly attributable cost. Fees of recurring nature are directly recognized in the Statement of Profit and Loss as finance cost.

3.10.2.2 **Subsequent measurement**

Financial liabilities are carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(i) Financial liabilities measured at amortized cost

After initial recognition, interest-bearing loans and borrowing are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in statement of profit and Loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and Fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Trade Payables

These amounts represent liabilities for goods and services provided to the company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid

TIRUPATI STARCH & CHEMICALS LIMITED

CIN : L15321MP1985PLC003181

12, AGRAWAL NAGAR MAIN ROAD, INDORE

FY 2025 - 26

within 30 to 120 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at fair value and subsequently measured at amortized cost using effective interest method.

(ii) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities designated upon initial recognition as at fair value through profit or loss.

1. Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

FAIR VALUE MEASUREMENT

The company measures financial instruments at fair value at each balance sheet date.

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. The fair value measurement is based on the assumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for asset or liability ,or
- (ii) In the absence of a principal market in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the company.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability assuming that market participants act in their economic best interest.

A fair value measurement of a non- financial asset takes into account a market participants ability to generate economic benefits by using the asset in its highest and best use or by selling to another market participant that would use the asset in its highest and best use.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value maximizing the use of relevant inputs and minimizing the use of unobservable inputs.

All Assets and Liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level- 1- Quoted (unadjusted) market prices in active markets for identical asset or liabilities.

Level- 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

TIRUPATI STARCH & CHEMICALS LIMITED

CIN : L15321MP1985PLC003181

12, AGRAWAL NAGAR MAIN ROAD, INDORE

FY 2025 - 26

Level- 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on recurring basis , the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

3.11 Leases

The company assesses at contract inception whether a contract is or contains a Lease. That is if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a Lessee

The company primarily lease consists of office premises which are in the nature of short-term leases and lease of low value assets (i.e. those leases payments on short that have a lease term of 12 Months or less from the commencement date and do not contain a purchase option).It also applies the lease of low-value assets recognition exemption of leases that are considered to be low value. Lease payments on Short- term leases and leases of low-value assets are recognized as expense in the statement of Profit & Loss on straight line basis over the term of lease.

3.12 EARNINGS PER SHARE:

Basic earnings per share is calculated by dividing the net profit or loss after tax attributable to equity shareholders, including deferred tax provision, by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

3.13 TAXES ON INCOME :

The tax expense for the period comprises current and deferred tax. Tax is recognized in Statement of Profit and Loss, except to the extent that it relates to items recognized in the other comprehensive income or in equity. In which case, the tax is also recognized in other comprehensive income or equity.

3.13.1 Current Tax:

Tax on income for the current period is determined on the basis of taxable income and tax credits computed in accordance with the provisions of the Income Tax Act, 1961 and using

FY 2025 - 26

estimates and judgments based on the expected outcome of assessments/appeals and the relevant rulings in the areas of allowances and disallowances.

3.13.2 **Deferred tax:**

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of deferred tax liabilities and assets are reviewed at the end of each reporting period.

Transaction or event which is recognised outside profit or loss, either in other comprehensive income or in equity, is recorded along with the tax as applicable.

3.13.3 **Minimum Alternative Tax (MAT)**

MAT credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset the said asset is created by way of credit to the statement of profit and loss and included in deferred tax assets. The company reviews the same at each balance sheet date and writes down the carrying amount of MAT entitlement to the extent there is no longer convincing evidence to the effect that company will pay normal income tax during the specified period.

3.14 **CASH AND CASH EQUIVALENTS:**

Cash and cash equivalents comprise cash at bank and in hand and short-term deposits with an Original maturity of three months or less.

For the purposes of the cash flow statement, cash and cash equivalents is as defined above, net of Outstanding bank overdrafts.

3.15 **Cash Flow Statement:**

Cash flows are reported using the indirect method, whereby the net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated

3.16 **SEGMENT INFORMATION**

The operating segment has been identified and reported taking into account its internal financial reporting, performance evaluation and organizational structure of its operations. Operating segment is reported in the manner evaluated by Board, considered as Chief operating Decision

The Management assessed that Cash and Cash Equivalents, Trade Receivable, Trade Payable, Other Current financial assets and other current financial liabilities approximate their carrying amounts largely due to the Short-Term maturities of these instruments.

The Fair value of the other financial asset and liabilities is included at the amount at which the instrument could be exchanged in a Current transaction between willing parties other than forced or Liquidation sale. The following methods and assumptions were used to estimate the fair value:-

- 1) The Fair value of Loans from Banks, other non-current financial assets and other non-current liabilities is estimated by discounting future Cash flows using rates currently available for debt or similar items, Credit Risk and remaining maturities. The Valuation requires management to use unobservable inputs in the model, of which the significant unobservable inputs are disclosed in the Table below. Management regularly assesses a range of reasonably possible alternatives for those significant unobservable inputs and determines their impact on the total fair value.
- 2) The Fair value of the company's interest bearing borrowings including debt component of Preference Shares are determined by using effective interest rate (EIR) method using discount rate that reflect the issuer's borrowing rate as at the end of the reporting period. The own non-performance risk as at 31st March, 2026 was assessed to be insignificant.
- 3) Fair Value hierarchy

The company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Financial risk management Objectives and Policies

The company principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables and cash and cash equivalents that are derived directly from its operations.

The Company's financial risk management is an internal part of how to plan and execute its business strategies. The company is exposed to market risk, credit risk and liquidity risk.

The Board of Directors reviews and agrees policies for managing each of these risks which are summarized as below

- Foreign Exchange Risk
- Interest Rate Risk
- Credit risk
- Liquidity risk and
- Market risk
- Commodity Price Risk

i. Risk management framework

The Company's board of directors has overall responsibility for establishment and Oversight of the company's risk management framework. The board of directors has established the processes to ensure that executive management controls risks through the Mechanism of property defined framework.

The Company's risk management policies are established to identify and analyze the risks faced by the company, to set appropriate risk limits and controls and to monitor risks and adherence to limits.

Risk management policies and systems are reviewed by the board annually to reflect changes in market conditions and company's activities. The company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

ii Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the company's receivables from customers and investments in debt securities. The carrying amount of financial assets represents the maximum credit exposure. The Company monitor credit risk very closely both in domestic and export market. The management impact analysis shows credit risk and impact assessment as low.

Trade and other receivable

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the

FY 2025 - 26

credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The company management has established a credit policy under which each new customer is analyzed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company's review includes market check, industry feedback, past financials and external ratings, if they are available, and in some cases bank references. Sale limits are established for each customer and reviewed quarterly. Any sales exceeding those limits require approval from the Directors of the company.

About 80% of the Company's customers have been transacting with the company for over Five to Ten years, and no significant impairment loss has been recognized against those customers. In monitoring customer credit risk, Customers are reviewed according to their credit characteristics, including whether they are an individual or a legal entity, their geographic location, industry and existence of previous financial difficulties

The company establishes an allowance for impairment that represents its expected credit losses in respect of trade and other receivables. The management uses a simplified approach for the purpose of computation of expected credit loss for trade receivables.

The carrying amount (net of loss allowances Rs Nil) of trade receivables is Rs. 3017.60 Lakhs (31st March, 2025 Rs. 3916.57 Lakhs)

During the year, the Company has made minor write-offs of trade receivables; it does not expect to receive future cash flows or recoveries from collection of cash flows previously written off. The Company management also pursues all legal option for recovery of dues wherever necessary based on its internal assessment.

iii. **Liquidity risk**

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are fallen due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, the Company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities) and cash and cash equivalents on the basis of expected future cash flows. This is generally carried out at unit level and monitored through registered office of the Company in accordance with practice and limits set by the Company. These limits vary by location to take into account requirement, future cash flow and the liquating cash flows in major currencies and considering the level of liquid assets necessary to meet

The interest payments on variable interest rate loans in the table above reflect market forward interest rates at the reporting date and these amounts may change as market interest rates change.

(iv) Market risk

Market risk is the risk that the Fair value of future cash flow of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: Currency rate risk, Interest Risk and other price risk, such as equity price risk and commodity price risk. Financial instruments affected by market risks include loans and borrowings, deposits, investments and foreign currency receivables and payables. The sensitivity analysis in the following sections relate to the position as at reporting date. The analysis excludes the

impact of movements in market variables on the carrying values of non-financial assets and liabilities. The sensitivity of the relevant Profit and Loss items and equity is the effect of the assumed changes in the respective market risks. This is based on the financial assets and financial liabilities held as of March 31, 2026 and March 31, 2025.

a. Currency risk

The company is exposed to foreign exchange risk arising currency transaction, primarily with respect to the USD and small exposure in EUR and GBP. Foreign exchange risk arises from future commercial transactions and recognized assets and liabilities denominated in a currency that is not the Company's functional currency (INR). The risk is measured through a forecast of highly probable foreign currency cash flows.

Currency risks related to the principal amounts of the Company's foreign currency receivables and payables, taken by the Company.

Sensitivity analysis

A. Interest rate risk

The Company's main interest rate risk arises from long-term borrowings with variable rates, which expose the Company to cash flow interest rate risk. During year ended 31 march 2026 and 31 march 2025, the Company's borrowings at variable rate were denominated in INR.

The Company has a Corporate Term Loan of Rs. 4000.00 Lakhs from SBI @ 8.60% PA (Previous Year @17.00% PA) Fixed. Presently the outstanding balance of the same is Rs. 680.51 Lakhs, GECL Loan of Rs. 12.60 Lakhs from SBI @ 8.95% PA (Previous Year @9.25% PA) Fixed. Presently the outstanding balance of the same is Rs. 276.18 Lakhs and Term Loan of Rs. 4500.00 Lakhs from HDFC @ 8.60% PA (Previous Year @ 8.80% PA) Fixed. Presently the outstanding balance of the same is Rs. 3395.78 Lakhs

Currently the Company's borrowings are within acceptable risk levels, as determined by the management; hence the company has not taken any swaps to hedge the interest rate risk. The Company constantly monitors the credit markets and revisits its financing strategies to achieve an optimal maturity profile and financing cost.

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

A. Commodity price risks

The Company is exposed to the risk of price fluctuation of raw materials, dyes and chemicals, work-in-progress and finished goods. The Company manages its commodity price risk by maintaining adequate inventory of raw materials, dyes and chemicals, work-in-progress and finished goods considering future price movement. To counter raw materials risk, the Company worked with various suppliers of Raw Material with the objective to material cost, enhances application flexibility and increase product functionality and also invested product development and innovation. The Company's Board of Directors has developed and enacted a risk management strategy regarding commodity price risk and its mitigation

41. Capital management

The primary objective of the management of the Company's capital structure is to maintain an efficient mix of debt and equity in order to achieve a low cost of capital, while taking into account the desirability of retaining financial flexibility to purpose the board of directors regularly review the Company's capital structure in light of the economic conditions, business strategies and future commitments. For the purpose of the company's capital management, capital includes issued share capital, Preference shares capital and all other equity reserves. No significant changes were made in the objectives, policies or processes relating to the management of the company's capital structure.

The Company monitors capital on basis of total equity and debt on a periodic basis. Equity comprises all components of equity including the fair value impact. Debt includes long-term loan and short term loans. The following table summarizes the capital of the Company:

Sensitivity Analysis: Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate and expected salary increase rate. Effect of change in mortality rate is negligible. Please note that the sensitivity analysis presented below may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumption would occur in isolation of one another as some of the assumptions may be correlated. The results of sensitivity analysis are given below:

Independent Auditor's Report

To the Members of

Tirupati Starch & Chemicals Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated financial statements of **Tirupati Starch & Chemicals Limited** ("the Holding Company"), and its wholly owned subsidiary **Tirupati Starch Charitable Foundation** ("the Subsidiary") collectively referred to as "the Group", which comprises the Consolidated Balance sheet as at 31st March 2026, and the Consolidated statement of Profit and Loss (including the statement of other Comprehensive Income), Consolidated statement of changes in Equity and Consolidated statement of Cash flows for the year then ended, and notes to the Consolidated financial statements, including a summary of significant accounting policies and other explanatory information (herein after referred to as "Consolidated Financial Statement").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standard) Rules 2015 as amended (IndAS) and other accounting principles generally accepted in India, of the Consolidated state of affairs of the Group as at 31 March 2026, and Consolidated profit including (other comprehensive income), its Consolidated cash flows and Consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Consolidated financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Consolidated financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence, obtained by us is sufficient and appropriate to provide a basis for our opinion on the Consolidated Financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated financial statements for the financial year ended March 31, 2026. These matters were addressed in the context of our audit of the Consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to communicate in our report.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon (Other Information)

The Holding Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information but does not include the Consolidated financial statements and our auditors' report thereon.

Our opinion on the Consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated financial statements, our responsibility is to read the other information identify above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Consolidated financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Company's annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations. We have nothing to report in this regard.

Management's and Board of Directors Responsibility for the Consolidated Financial Statements

The Holding Company's Management & Board of Directors are responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Consolidated financial statements that give a true and fair view of the financial position, financial performance including other Comprehensive Income and cash flows of Income and changes in Equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (IndAs) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Consolidated financial statements, management and Board of Directors are responsible for assessing the Group's ability to continue as a going concern, disclosing. As applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

The respective Board of Directors of the Company / Trustees of the trusts included in the Group are responsible for overseeing the financial reporting process of the respective company / trusts included in the Group

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to Consolidated financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the Consolidated financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated financial statements, including the disclosures, and whether the Consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated financial statements for the financial year ended March 31, 2026 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

“Annexure A” to the Independent Auditor’s Report on the Consolidated Financial Statements

Referred to in paragraph 20(f) of the Independent Auditor’s Report of even date to the members of Tirupati Starch & Chemicals Limited on the consolidated financial statements as of and for the year ended March 31, 2026.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of **Tirupati Starch & Chemicals Limited** (hereinafter referred to as “the Holding Company”) as of and for the year ended March 31, 2026 We have audited the internal financial controls with reference to the consolidated financial statements of the Holding Company which includes the internal financial controls over financial reporting of the Holding Company, one subsidiary company (Trust), which are companies incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary company, to whom reporting under clause (i) of sub section 3 of Section 143 of the Act in respect of the adequacy of the internal financial controls with reference to consolidated financial statements is applicable, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company and Subsidiary Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls with reference to financial statement of the company that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Holding Company’s internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statement of the company over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial controls system with reference to consolidated financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Consolidated financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting with Reference to these Consolidated Financial Statements.

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to explanations gives to us, the Holding Company and its one wholly owned subsidiary company which is a company incorporated in India have all material respects, an adequate internal financial controls system with reference to financial statement and such internal financial controls with reference to financial statements were operating effectively as at

2. **MATERIAL ACCOUNTING POLICIES :**

A. **Statement of Compliance:**

These Consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards (IND AS) notified under the companies (Indian Accounting Standard) Rules 2015 as amended from time to time and presentation requirements of Division II of schedule III to the Companies Act 2013 (Ind-AS compliant Schedule III). These Consolidated financial statements have been approved for issue by the Board of Directors at its meeting held on May 29, 2026.

B. **Basis of Preparation:**

The Consolidated financial statements have been prepared on the going concern basis at historical cost convention on the accrual basis except for assets and liabilities which have been measured as indicated below:

- (i) Certain financial assets and liabilities at fair value.
- (ii) Employee's Defined Benefit Plan measured as per actuarial valuation.

Fair value measurements are categorised as below based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at measurement date;
- Level 2 inputs are inputs, other than quoted prices included in level 1, that are observable for the assets or liabilities, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the valuation of assets or liabilities.

Above levels of fair value hierarchy are applied consistently and generally, there are no transfers between the levels of the fair value hierarchy unless the circumstances change warranting such transfer.

C. **Accounting Policy Information :**

The material accounting policies adopted in preparation of the consolidated financial statements has been disclosed in the pertinent note along with other information in italics. All

accounting policies has been consistently applied to all the period presented in the consolidated financial statements unless otherwise stated.

Principles of consolidation

The consolidated financial statement comprises the financial statements of the parent and entity controlled by the parent i.e. subsidiaries.

Subsidiary

Subsidiary is the entity over which the Group has control. The Group controls an entity when the group is exposed to or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Consolidation of the subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains the control until the date the Group ceases to control the subsidiary. The Group combines the financial statements of the parent and its subsidiary line by line adding together like items of assets, liabilities, equity, income and expenses. Intra-group transactions, balances and Unrealised profits on transactions between group companies are eliminated in full. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred assets. Appropriate adjustments for deferred taxes are made for temporary differences that arise from the elimination of unrealised profits and losses from intra-group transactions or undistributed earnings of Group's entity included in consolidated statement of profit and loss, if any. The consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances.

D. Presentation of Consolidated financial statements :

The Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 (the Act). The Statement of Cash Flows has been prepared and presented in accordance with Ind AS 7 "Statement of Cash Flows". The disclosures with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the Consolidated financial statements along with the other notes required to be disclosed under the notified Accounting Standards and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended.

Amounts in the Consolidated financial statements are presented in Indian Rupee in Lakhs rounded off to two places as permitted by Schedule III to the Act. Per share data are presented in Indian Rupee to two decimals places.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS :

Key sources of estimation

The preparation of the consolidated financial statements in conformity with Ind AS requires that the management of the Group makes estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the Consolidated financial statements. The estimates and underlying assumptions made by management are explained under respective policies. Revisions to accounting estimates include useful lives of property, plant and equipment & intangible assets, allowance for expected credit loss, future obligations in respect of retirement benefit plans, fair value/recoverable amount measurement, etc. Difference, if any, between the actual results and estimates is recognised in the period in which the results are known

Classification of Assets and Liabilities as Current and non-Current:

The Group presents assets and liabilities in the balance sheet based on current / non-current classification based on operating cycle.

An asset is treated as current when it is:

- a. Expected to be realized or intended to be sold or consumed in normal operating cycle;
- b. Held primarily for the purpose of Trading.
- c. Expected to be realized within twelve months after the reporting period,
Or
- d. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:-

- a. It is expected to be settled in normal operating cycle.
- b. It is held primarily for the purpose of Trading.
- c. It is due to be settled within twelve months after the reporting period.
Or
- d. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other Liabilities are classified as non-Current.

Deferred Tax Assets and Deferred Tax Liabilities are classified as non-current Assets and Liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

3.1 **PROPERTY, PLANT AND EQUIPMENT (PPE):**

- (i) PPE is recognised when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. PPE is stated at original cost net of tax/duty credits availed, if any, less accumulated depreciation and cumulative impairment, if any. Freehold land is carried at cost. All directly attributable costs related to the acquisition of PPE and, borrowing costs in case of qualifying assets are capitalised in accordance with the Group's accounting policy.
- (ii) Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably. In the carrying amount of an item of PPE, the cost of replacing the part of such an item is recognized when that cost is incurred if the recognition criteria are met. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition principles. All other repairs and maintenance are charged to the statement of profit and loss during the reporting period in which they are incurred.
- (iii) Expenses incurred relating to project, net of income earned during the project development stage prior to its intended use, are considered as pre - operative expenses and disclosed under Capital Work - in - Progress.
- (iv) Depreciation on property, plant and equipment is provided on prorated basis using straight line method. Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013. Each part of an item of Property, Plant & Equipment with a cost that is significant in relation to total cost of the Machine is depreciated separately, if its useful life is different than the life of the Machine.
- (v) The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.
- (vi) An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognized.
- (vii) Spare parts procured along with the Plant & Machinery or subsequently which meet the recognition criteria are capitalized and added in the carrying amount of such item. The carrying amount of those spare parts that are replaced is derecognized when no future economic benefits are expected from their use or upon disposal. Other machinery spares are treated as "stores & spares" forming part of the inventory.

DEPRECIATION:

Property, plant and equipment / intangible assets are depreciated / amortized over their estimated useful lives, which are equal to the useful life prescribed under Schedule II to the Companies Act, 2013 after taking into account estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation / amortization to be recorded during any reporting period. The useful lives and residual values are based on the Group's historical experience with similar assets and take into account anticipated technological changes based on a technical evaluation by the management. The depreciation / amortization for future periods is revised if there are Significant changes from previous estimates.

10	Electrical Installation and Equipment	10 Year	10 Year

INTANGIBLE ASSETS:

Intangible assets are stated at cost of acquisition net of recoverable taxes less accumulated amortization/ depletion and impairment loss if any. The cost comprises of purchase price, borrowing costs and any cost directly attributable to bringing the asset to its working condition for the intended use.

Expenditure incurred on acquisition of intangible assets which are not ready to use at the reporting date is disclosed under “Intangible assets under development”

Amortization Method and Periods:

Amortization is charged on a straight– line basis over the estimated useful lives and these intangible assets are assessed for impairment whenever there is an indication that the intangible asset may be impaired. The estimated useful lives and amortization method are reviewed at the end of each annual reporting period with the effect of any changes in the estimate being accounted for a prospective basis.

Computer Software's are amortized over an estimated useful life of 3 Years.

3.2 IMPAIRMENT OF ASSETS:

3.2.1 IMPAIRMENT OF NON FINANCIAL ASSETS:

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Units (CGU's) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is used.

3.2.2 IMPAIRMENT OF FINANCIAL ASSETS:

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss rates. The Group uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

3.3 BORROWING COST :

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of such assets up to the assets are substantially ready for their intended use or sale.

The loan origination costs directly attributable to the acquisition of borrowings (e.g. loan processing fee, upfront fee) are amortized on the basis of the effective interest rate (EIR) method over the term of the loan.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are recognized in the statement of profit and loss in the period in which they are incurred.

3.4 FOREIGN EXCHANGE TRANSACTIONS AND FORWARD CONTRACTS:

Items included in the Consolidated financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The

12, AGRAWAL NAGAR MAIN ROAD, INDORE

FY 2025 – 26

Consolidated financial statements are presented in Indian rupees ('INR'), which is also the Group's Functional currency.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Group at their respective Functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities Denominated in foreign currencies are translated at the functional Currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognized in the Statement of profit or loss with the exception of the following:-

Exchange difference on foreign currency borrowings included in the borrowing cost when they regarded as an adjustment to interest costs on those foreign currency borrowings.

Exchange differences on gain or loss arising on translation of non-monetary items measured at fair value which is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e. translation difference on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss respectively)

Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items, which are carried in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction.

3.5 **EMPLOYEE BENEFITS:**

3.5.A **Short term employee benefits**

Liabilities for wages and Salaries, Annual Leave & Bonus etc. including non monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related services are recognized in respect of employee service up to the end of the reporting period and are measured at the amount expected to be paid when the liabilities are settled. The Liabilities are presented as current employee benefit obligations in the Balance sheet.

3.5.B **Other Long Term employee Obligation benefit plans:**

a) Defined contribution plans

Provident and other funds

The Group makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards provident fund and other funds which are defined

contribution plans. The Group has no obligations other than this to make the specified contributions.

b) Defined benefit plans

Gratuity

The Company has an arrangement with LIC of India for settlement of gratuity obligations. Under this arrangement, the Company does not make periodic contributions towards the gratuity liability as it accrues annually. Instead, the requisite amount is funded to LIC of India at the time the gratuity liability becomes due and payable to the employee, and the corresponding gratuity obligation is discharged through LIC.

Company has covered Gratuity Liability through 'GROUP GRATUITY POLICY' issued by LIC of India. The said policy covers the following:

1. Gratuity Payable to employee at the time of retirement from the funds accumulated in employees account with the insurance company.
2. Eligible Gratuity payable to the employee at the time of resignation or retrenchment before retirement age from the funds accumulated in the account with the Insurance Company.
3. Gratuity payable at the time of early death (i.e. before retirement), being an amount of Full Gratuity, which is payable on the day of retirement.

Expenses for defined benefit gratuity payment plans are calculated as at the balance sheet date by independent actuary in the manner that distributes expenses over the employees working life. The amount as determined by the independent Actuary in respect of Gratuity Liability, at the end of the year is considered as expenditure at the end of the year. These commitments are valued at the present value of the expected future payments, with consideration for calculated future salary increases, using discounted rate corresponding to the interest rate estimated by the actuary with a remaining term i.e. almost equivalent to the average balance working period of employees. The services cost and the net interest cost are charged to the statement of profit and loss, Actuarial gain and losses arise due to re-measurement as result of the actual expenses and assumed parameters and changes in the assumption used for valuation are recognized in the Other Comprehensive Income (OCI)

3.6 REVENUE RECOGNITION :

(i) Revenue from contracts with customers:

- (a) The Company Manufactures - Maize Starch and Starch Products.

Revenue has been recognized as & when all the performance obligations in the ordinary course of business are satisfied. The consideration of goods expected from customer reflects the

promised goods actually transferred as per the normal terms and condition attached at the time of risk and rewards and customer obtains the control over the goods has been transferred. An entity does not deals in the packaged or combined goods and contract with customer need not raise any future obligation, an Entity deals only in a distinct goods and all the goods promised in the contract are a single and separate performance obligation at the time when customer obtains the control and possess all risk and rewards attached to the distinct goods has been transferred to the customer in an actual sense.

At the inception Entity identifies and determines the distinct goods and fixed the consideration based on explicit and a single performance obligation i.e. no future obligation remains to be performed. There is no variable consideration and no any events occurred that cause consideration to be variable and hence no any question of determination transaction cost.

Revenue recognized in the result shows the actual obligation performed and does not include such other activities to satisfy future obligation unless a goods or is actually transferred to the customer.

An Entity does not involve in such contracts which identify the multiple performance obligations and therefore customer has no options to acquire an additional goods embedded to the original and distinct goods and accordingly management recognized the revenue based on the terms and conditions stipulated at the time of transfer the distinct and promised goods which has been delivered to the customers.

An Entity does not enter in to a contract to install or maintenance or incentives or warranty or discount policy and therefore no future obligation need to be performed to adjust the consideration received and there is no created/occurred any deferred revenue.

So based on the single performance obligation there are in the contract, price consideration recognized in the Consolidated financial statement would not materially differ. If there is an uncertainty in recovery of the recognized revenue and does not arise the cash flow from such contracts with customers in this case management shall expediently justify their judgment, assumption and estimation taken while the standard set.

- (b) The Subsidiary Group is established for charitable purposes and does not carry on Commercial activities. Donations and voluntary contributions from the Holding Group or any other donor are recognised as Income when the Group obtains the right to receive the amount and there is reasonable certainty regarding its ultimate collections where donations or grants are received for specific purpose subject to stipulated Conditions, such income is recognised in accordance with the terms and conditions attached thereto-

Other Income:

a. Export Benefits

The amount available towards Export Benefits under duty exemption or any other Scheme during the years has been ascertained when the right of receive credit as per terms of the scheme is established in respect of export made at fair value of consideration received or receivable.

- b. Interest income from a Consolidated financial asset is recognized using effective interest rate (EIR) method.
- c. Insurance claims are accounted for on the basis of claim admitted / expected to be admitted to the extent that there is no uncertainty in receiving the claims.
- d. Other items of income are accounted as and when the right to receive such income arises and it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably.

Exceptional items

An item of income or expense which by its size, type or incidence requires disclosure in order to improve an understanding of the performance of the Group is treated as an exceptional item and disclosed as such in the Consolidated financial statements

3.7 GOVERNMENT GRANTS AND SUBSIDIES:

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants that compensate the Group for expenses incurred are recognized in the statement of profit and loss, as income or deduction from the relevant expense, on a systematic basis in the periods in which the expenses is recognized.

Government grants relating to the purchase of property, plant and equipment are recognized by deducting the same from carrying value of the related asset the grant is then recognized in profit or loss over the useful life of the depreciable asset by way of a reduced depreciation charge.

3.8 INVENTORIES :

Inventories are valued as follows:

SR.No.	Name	Description
1	Raw Materials, Dyes and Chemicals, Stores& Spares and Consumables	Lower of cost and net realizable value. Cost is determined on a FIFO basis. Cost includes expenditure incurred in acquiring the inventories and other costs include in bringing them to their present location and condition. Materials and other items held for use in the production of inventories are not written down below costs, if finished goods in which they will be incorporated are expected to be sold at or above cost.
2	Work-in-Process, Finished goods, By-products.	Lower of cost and net realizable value. Cost includes direct materials, labour, and a proportion of manufacturing overheads and an appropriate share of fixed production overheads based on normal operating capacity. Net realizable value is the estimated selling price in the ordinary course of business, less estimated

		cost of completion and the estimated costs necessary to make sale.
3	Waste/Scrap	At net realizable value

3.9. **PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS:**

The Group recognizes a provision when there is present obligation as a result of a past event that probably requires an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. A disclosure for a contingent liability made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation and the likelihood of outflow of resources is remote, no provision or disclosure for contingent liability is made.

Contingent assets are not recognised in the Consolidated financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised

Provisions, Contingent Liabilities, Contingent Assets and commitments are reviewed at each Balance sheet date.

3.10 **FINANCIAL INSTRUMENTS :**

A financial instrument is any contract that gives rise to a financial asset of one entity and a Financial Liability or Equity Instrument of another entity. Financial instruments also include derivative contracts such as foreign currency, foreign exchange forward contracts and interest rate swaps

3.10.1 **Financial Assets**

a) Initial recognition and measurement

All financial assets are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition. Purchase and sale of financial assets are recognized using trade date accounting.

b) Subsequent measurement

Financial assets carried at amortized cost

A financial asset is measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realize its fair value changes) and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

TIRUPATI STARCH & CHEMICALS LIMITED

CIN : L15321MP1985PLC003181

12, AGRAWAL NAGAR MAIN ROAD, INDORE

FY 2025 – 26

Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For financial assets that are measured at FVTOCI, income by way of interest and dividend, provision for impairment and exchange difference, if any, (on debt instrument) are recognised in profit or loss and changes in fair value (other than on account of above income or expense) are recognised in other comprehensive income and accumulated in other equity. On disposal of debt instruments at FVTOCI, the cumulative gain or loss previously accumulated in other equity is reclassified to profit or loss. In case of equity instruments at FVTOCI, such cumulative gain or loss is not reclassified to profit or loss on disposal of investments.

Financial assets at fair value through profit or loss (FVTPL)

A financial asset not classified as either amortized cost or FVOCI, is classified as FVTPL.

C) Equity Investments

All other equity investments are measured at fair value, with value changes recognized in Statement of Profit and Loss, except for those equity investments for which the Group has elected to present the value changes in 'Other Comprehensive Income'.

d) Investments in subsidiaries, associates and joint ventures

The Group assesses if it has acquired control, joint control or significant influence over an investee based on shareholding, voting power, composition of board, rights under shareholder agreements and other facts and circumstances of each case which involves use of judgment. The Group accounts for its equity investments in subsidiaries, associates and joint ventures at cost less accumulated impairment, if any.

TRADE RECEIVABLES:

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. If the receivable is expected to be collected within a period of 12 months or less from the reporting date (or in the normal operating cycle of the business, if longer), they are classified as current assets otherwise as non-current assets.

Trade receivables are measured at their transaction price unless it contains a significant financing component in accordance with Ind-AS 115 or pricing adjustments embedded in the contract.

Loss allowance for expected life time is credit loss recognized on initial recognition.

e) Impairment of financial assets

'In accordance with Ind AS 109, the Group uses 'Expected Credit Loss' (ECL) model, for

TIRUPATI STARCH & CHEMICALS LIMITED

12, AGRAWAL NAGAR MAIN ROAD, INDORE

FY 2025 – 26

Evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

- The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date);

or

- Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

For trade receivables Group applies 'simplified approach' which requires expected lifetime losses to be recognized from initial recognition of the receivables. The Group uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analyzed.

For other assets, the Group uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

3.10.2 **Financial Liabilities**

3.10.2.1 **Initial recognition and measurement**

All financial liabilities are recognized at fair value and in case of loans, net of directly attributable cost. Fees of recurring nature are directly recognized in the Statement of Profit and Loss as finance cost.

3.10.2.2 **Subsequent measurement**

Financial liabilities are carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(i) Financial liabilities measured at amortized cost

After initial recognition, interest-bearing loans and borrowing are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in statement of profit and Loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and Fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Trade Payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 to 120 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at fair value and subsequently measured at amortized cost using effective interest method.

(ii) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities designated upon initial recognition as at fair value through profit or loss.

1. Derecognition of financial instruments

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Group's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

FAIR VALUE MEASUREMENT

The Group measures financial instruments at fair value at each balance sheet date.

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. The fair value measurement is based on the assumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for asset or liability ,or
- (ii) In the absence of a principal market in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability assuming that market participants act in their economic best interest.

A fair value measurement of a non- financial asset takes into account a market participants ability to generate economic benefits by using the asset in its highest and best use or by selling to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value maximizing the use of relevant inputs and minimizing the use of unobservable inputs.

All Assets and Liabilities for which fair value is measured or disclosed in the Consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

TIRUPATI STARCH & CHEMICALS LIMITED

CIN : L15321MP1985PLC003181

12, AGRAWAL NAGAR MAIN ROAD, INDORE

FY 2025 – 26

Level- 1- Quoted (unadjusted) market prices in active markets for identical asset or liabilities.

Level- 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level- 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the Consolidated financial statements on recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

3.11 Leases

The Group assesses at contract inception whether a contract is or contains a Lease. That is if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a Lessee

The Group primarily lease consists of office premises which are in the nature of short-term leases and lease of low value assets (i.e. those leases payments on short that have a lease term of 12 Months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption of leases that are considered to be low value. Lease payments on Short-term leases and leases of low-value assets are recognized as expense in the statement of Profit & Loss on straight line basis over the term of lease.

3.12 EARNINGS PER SHARE:

Basic earnings per share is calculated by dividing the net profit or loss after tax attributable to equity shareholders, including deferred tax provision, by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

3.13 TAXES ON INCOME :

The tax expense for the period comprises current and deferred tax. Tax is recognized in Statement of Profit and Loss, except to the extent that it relates to items recognized in the other comprehensive income or in equity. In which case, the tax is also recognized in other comprehensive income or equity.

12, AGRAWAL NAGAR MAIN ROAD, INDORE

FY 2025 – 26

3.13.1 **Current Tax:**

Tax on income for the current period is determined on the basis of taxable income and tax credits computed in accordance with the provisions of the Income Tax Act, 1961 and using estimates and judgments based on the expected outcome of assessments/appeals and the relevant rulings in the areas of allowances and disallowances.

3.13.2 **Deferred tax:**

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the Consolidated financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of deferred tax liabilities and assets are reviewed at the end of each reporting period.

Transaction or event which is recognised outside profit or loss, either in other comprehensive income or in equity, is recorded along with the tax as applicable.

3.13.3 **Minimum Alternative Tax (MAT)**

MAT credit is recognized as an asset only when and to the extent there is convincing evidence that the Group will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset the said asset is created by way of credit to the statement of profit and loss and included in deferred tax assets. The Group reviews the same at each balance sheet date and writes down the carrying amount of MAT entitlement to the extent there is no longer convincing evidence to the effect that Group will pay normal income tax during the specified period.

3.14 **CASH AND CASH EQUIVALENTS:**

Cash and cash equivalents comprise cash at bank and in hand and short-term deposits with an Original maturity of three months or less.

For the purposes of the cash flow statement, cash and cash equivalents is as defined above, net of Outstanding bank overdrafts.

3.15 **Cash Flow Statement:**

Cash flows are reported using the indirect method, whereby the net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Group are segregated

SEGMENT INFORMATION

The operating segment has been identified and reported taking into account its internal financial reporting, performance evaluation and organizational structure of its operations. Operating segment is reported in the manner evaluated by Board, considered as Chief operating Decision Maker under Ind AS “108 Operating Segments.” The Group is engaged in a single operating segment.

Recent Accounting Pronouncements:

The Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and the Companies (Indian Accounting Standards) Second Amendment Rules, 2025, introducing amendments to certain Indian Accounting Standards (Ind AS), which are effective for annual reporting periods beginning on or after 1 April 2025 or such other dates as specified in the respective notifications.

The Group has evaluated the applicability and impact of the aforesaid amendments on its Consolidated financial statements. Based on such evaluation, the management has concluded that the amendments are either not applicable to the Group or are not expected to have any material impact on the recognition, measurement, presentation or disclosure of transactions in the financial statements. Accordingly, the adoption of these amendments has not resulted in any material adjustment to the financial statements of the Group for the year ended 31 March 2026.

The Management assessed that Cash and Cash Equivalents, Trade Receivable, Trade Payable, Other Current financial assets and other current financial liabilities approximate their carrying amounts largely due to the Short-Term maturities of these instruments.

The Fair value of the other financial asset and liabilities is included at the amount at which the instrument could be exchanged in a Current transaction between willing parties other than forced or Liquidation sale. The following methods and assumptions were used to estimate the fair value:-

- 1) The Fair value of Loans from Banks, other non-current financial assets and other non-current liabilities is estimated by discounting future Cash flows using rates currently available for debt or similar items, Credit Risk and remaining maturities. The Valuation requires management to use unobservable inputs in the model, of which the significant unobservable inputs are disclosed in the Table below. Management regularly assesses a range of reasonably possible alternatives for those significant unobservable inputs and determines their impact on the total fair value.
- 2) The Fair value of the company's interest bearing borrowings including debt component of Preference Shares are determined by using effective interest rate (EIR) method using discount rate that reflect the issuer's borrowing rate as at the end of the reporting period. The own non-performance risk as at 31st March .2026 was assessed to be insignificant.
- 3) Fair Value hierarchy

The company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1:Quoted (Unadjusted) prices in active markets for identical assets or Liabilities

Level 2: Other techniques for which all inputs that have a significant effect on the recorded fair value are observable, either directly or indirectly

Financial risk management Objectives and Policies

The company principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables and cash and cash equivalents that are derived directly from its operations.

The Company's financial risk management is an internal part of how to plan and execute its business strategies. The company is exposed to market risk, credit risk and liquidity risk.

The Board of Directors reviews and agrees policies for managing each of these risks which are summarized as below

- Foreign Exchange Risk

i. Risk management framework

The Company's board of directors has overall responsibility for establishment and Oversight of the company's risk management framework. The board of directors has established the processes to ensure that executive management controls risks through the Mechanism of properly defined framework.

The Company's risk management policies are established to identify and analyze the risks faced by the company, to set appropriate risk limits and controls and to monitor risks and adherence to limits.

Risk management policies and systems are reviewed by the board annually to reflect changes in market conditions and company's activities. The company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

ii Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the company's receivables from customers and investments in debt securities. The carrying amount of financial assets represents the maximum credit exposure. The Company monitors credit risk very closely both in domestic and export markets. The management impact analysis shows credit risk and impact assessment as low.

Trade and other receivable

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The company management has established a credit policy under which each new customer is analyzed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company's review includes market check, industry feedback, past financials and external ratings, if they are available, and in some cases bank references. Sale limits are established for each customer and reviewed quarterly. Any sales exceeding those limits require approval from the Directors of the company.

About 80% of the Company's customers have been transacting with the company for over Five to Ten years, and no significant impairment loss has been recognized against those customers. In monitoring customer credit risk, Customers are reviewed according to their credit characteristics, including whether they are an individual or a legal entity, their geographic location, industry and existence of previous financial difficulties.

The company establishes an allowance for impairment that represents its expected credit losses in respect of trade and other receivables. The management uses a simplified approach for the purpose of computation of expected credit loss for trade receivables.

The carrying amount (net of loss allowances Rs Nil) of trade receivables is Rs. 3017.60 Lakhs (31st March, 2025 Rs. 3916.57 Lakhs)

During the year, the Company has made minor write-offs of trade receivables; it does not expect to receive future cash flows or recoveries from collection of cash flows previously written off. The Company management also pursues all legal option for recovery of dues wherever necessary based on its internal assessment.

iii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are fallen due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, the Company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities) and cash and cash equivalents on the basis of expected future cash flows. This is generally carried out at unit level and monitored through registered office of the Company in accordance with practice and limits set by the Company. These limits vary by location to take into account requirement, future cash flow and the liquating cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

The interest payments on variable interest rate loans in the table above reflect market forward interest rates at the reporting date and these amounts may change as market interest rates change.

(iv) Market risk

Market risk is the risk that the Fair value of future cash flow of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: Currency rate risk, Interest Risk and other price risk, such as equity price risk and commodity price risk. Financial instruments affected by market risks include loans and borrowings, deposits, investments and foreign currency receivables and payables. The sensitivity analysis in the following sections relate to the position as at reporting date. The analysis excludes the impact of movements in market variables on the carrying values of non-financial assets and liabilities. The sensitivity of the relevant Profit and Loss items and equity is the effect of the assumed changes in the respective market risks. This is based on the financial assets and financial liabilities held as of March 31, 2026 and March 31, 2025.

a. Currency risk

The company is exposed to foreign exchange risk arising currency transaction, primarily with respect to the USD and small exposure in EUR and GBP. Foreign exchange risk arises from future commercial transactions and recognized assets and liabilities denominated in a currency that is not the Company's functional currency (INR). The risk is measured through a forecast of highly probable foreign currency cash flows.

Currency risks related to the principal amounts of the Company's foreign currency receivables and payables, taken by the Company.

Sensitivity analysis

A. Interest rate risk

The Company's main interest rate risk arises from long-term borrowings with variable rates, which expose the Company to cash flow interest rate risk. During year ended 31 march 2026 and 31 march 2025, the Company's borrowings at variable rate were denominated in INR.

The Company has a Corporate Term Loan of Rs. 4000.00 Lakhs from SBI @ 8.60% PA (Previous Year @17.00% PA) Fixed. Presently the outstanding balance of the same is Rs. 680.51 Lakhs, GECL Loan of Rs. 12.60 Lakhs from SBI @ 8.95% PA (Previous Year @9.25% PA) Fixed. Presently the outstanding balance of the same is Rs. 276.18 Lakhs and Term Loan of Rs. 4500.00 Lakhs from HDFC @ 8.60% PA (Previous Year @ 8.80% PA) Fixed. Presently the outstanding balance of the same is Rs. 3395.78 Lakhs

Currently the Company's borrowings are within acceptable risk levels, as determined by the management; hence the company has not taken any swaps to hedge the interest rate risk. The Company constantly monitors the credit markets and revisits its financing strategies to achieve an optimal maturity profile and financing cost.

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

A. Commodity price risks

The Company is exposed to the risk of price fluctuation of raw materials, dyes and chemicals, work-in-progress and finished goods. The Company manages its commodity price risk by maintaining adequate inventory of raw materials, dyes and chemicals, work-in-progress and finished goods considering future price movement. To counter raw materials risk, the Company worked with various suppliers of Raw Material with the objective to material cost, enhances application flexibility and increase product functionality and also invested product development and innovation. The Company's Board of Directors has developed and enacted a risk management strategy regarding commodity price risk and its mitigation.
